Core Statement of Whole Child Development

Children move through various stages of development as they mature. Development is influenced both by hereditary factors as well as by experiences, both nature and nurture. The direction of development is from general to specific, from dependence toward independence and interdependence, and from gross motor control toward fine motor control. Our philosophy is that all aspects of development are interrelated and each individual child is worthy of respect and encouragement. Successful early childhood programs provide an interesting, challenging, and engaging environment. Bel-Red Bilingual Academy has created a unique, active, and stimulating program that encourages learning through guided experience and accomplishment with encouragement and support. Our comprehensive program allows your child to mature in his or her ability to focus, use language, and better absorb knowledge from a multitude of learning environments.

幼儿教育的重要性

幼儿的发育和成长虽受制于先天基因，但更获益于后天的精心培养。儿童的身体、感观和心智的发育是从对整体的认知到对个体和细节的识别；从通过对实物直接触摸的形象思维到抽象化思维。幼儿社会能力的发展也是从依赖到独立，到互动。孩子们德智体的发展以及每个发育阶段都互相关联。北美双语学院的学前班、幼稚园和小学部为学生们提供一个

生动有趣、互学互动、具有挑战性并让人喜爱的独特环境。我们所设立的综合教学大纲着重于全面培养孩子的语言能力、观察力、记忆力、思维力、想象力、创造力和情感品质；唤起孩子强烈的好奇心和求知欲，使他们意识到自己处在一个有着神秘的色彩，乐趣无穷的世界之中。我们的教育方法着重于通过支持鼓励和引导使学生们在学习中获得一种快乐感和自豪感，从而强化其不断求知的欲望。您的孩子在这个全方位的学习环境中不但学业长进，而且将依照他自身的发展潜力获得身体、情感、智力、意志的充分发展。
